

In The Specification:

Please substitute the following title for the pending title.

CLEANER FOR IN-EYE CLEANING OF CONTACT LENS

In The Claims:

Please substitute the following claims for the pending claims of the same number.

Claim 17. (Amended) A method of cleaning a contact lens in the eye of a wearer comprising applying to said contact lens an ophthalmically compatible contact lens cleaning solution comprising water-containing beads having a mean particle size of less than 30 μm , wherein at least 90 weight percent of said water-containing beads have a major diameter of less than 50 μm .

Claim 19. (Amended) The method of claim 18 wherein said method further comprising the sequential steps of blinking and then rinsing the eye and the contact lens with an ophthalmic rinsing solution to dilute or substantially remove the contact lens cleaning solution from the eye.
